# Introduction:

## Plumbing & Heating Merchant Index

This Plumbing & Heating Merchant Index (PHMI) report contains data from GfK's ground-breaking Plumbing & Heating Merchants Panel, which analyses data from over 80% of Plumbing & Heating merchants' sales throughout Great Britain, accounting for about £3bn. There is no overlap or double counting between PHMI and Builders Merchant Building Index (BMBI).

GfK's Plumbing & Heating Point of Sale Tracking Data is a gold standard in reliable market trends. Unlike data from sources based on relatively small samples or estimates, or sales from suppliers to the supply chain, this up-to-date data is based on actual sales from specialist plumbing & heating merchants. It is, in effect, the market.

Currently, data is available by total monthly value sales and the series tracks what is happening in the plumbing and heating market month by month. PHMI Index data is calculated against the base period January 2019 to December 2019. This trend series gives the industry access to far more accurate insights than has been available.

MRA Research produces the Plumbing & Heating Merchant Index, a brand of the BMF (Builders Merchants Federation), to provide reliable data, and a platform and voice for this important industry and for leading plumbing and heating brands to communicate to the wider market.

### **More data available**

This PHMI report provides valuable top-level indices but there's considerably more data available. GfK insights go much deeper and can quantify market values and drill down into contributing categories, tracing product group performance, to focus on aspects that are critical to you.

GfK can produce like-for-like market comparability tailored to the requirements of an individual business. Merchants or suppliers who are interested in acquiring data or getting involved should contact Emile van der Ryst at [emile.van-der-ryst@gfk.com](mailto:emile.van-der-ryst@gfk.com).

# Overview and Insights

## Plumbing & Heating Merchants February 2022 sales up 3.2% on February 2021

## Plumbing & Heating Merchant Index

### Plumbing Specialists

Plumbing & Hardware Specialists are small outlets handling nails, hardware products, pipes, ironware, paint, faucets, sanitary products, bathroom accessories, ceramic tiles and heating equipment such as boilers, radiators & heating controls. Their main turnover is generated with product groups such as installation, paint & plumbing/hardware product groups (e.g. nails, saws, scissors, keys).

### Plumbing Merchants

Large outlets handling nails, hardware products, pipes, ironware, paint, faucets, sanitary products, bathroom accessories & kitchen, bathroom furniture, bath tubs and heating equipment such as boilers, radiators & heating controls. Compared with Plumbing Specialists they are bigger & generate a higher turnover.

Their main turnover is generated with bath/kitchen faucets, sanitary & complementary products, bathroom accessories, tiles and bath tubs and bathroom furniture.

Turnover is generated with professional end users (B2B) as well as private end users (B2C).
